Good morning Tiffany,

I wanted to follow-up on this RV and trailers seen at this location.

When the CARE team was out at the location, they noticed that this RV & trailer does have wheels. From my understanding, as long as nobody is occupying (living) within the RV/Trailer, they should be able to investigate it further.

I hope this helps.

Thank you, Abe! If we can do anything at all regarding the RV or if you have any recommendations I would really appreciate it!

Hey Tiffany,

I know in the past we normally post these for removal, but due to our legal pressure and Covid restrictions, I am not 100% sure how we would go about removing this.

I saw this on the CARE list today and I have informed the team to continue with our current protocols of ADA/Ingress-Egress enforcement, health hazard and trash/debris removal.

I will get back to you on the RV portion.

Best regards,

Hi Abe,

I hope you are doing well. I was wondering if we can further discuss this site. As the RV here is not on wheels, it seems that might be why the Department of Transportation is not enforcing ticketing, even though the RV is parked here between 10PM and 5AM and there are signs.

What are your recommendations for this site? Please see the photos attached.

CARE clean up please.

Can you find out who owns the property at 6822 Farmdale, we need them to shut off the water. The transients are stealing the water and power from the property. DWP was previously out to remove the power cord.

Thanks.
